

£25,000 Retail and Hospitality Grant Scheme

What is it?

A scheme offering a one-off £25,000 grant to eligible retail, hospitality and leisure businesses. Note that the requirements to receive the grant will depend on where your business is located in the UK.

Who is eligible?

The Retail and Hospitality Grant Scheme covers businesses in the retail, hospitality and leisure sector. There are regional requirements to be aware of:

England: Your business needs to have a rateable value between £15,001 and £51,000 [to be eligible](#).

Scotland: [To be eligible](#), your business needs to have a rateable value between £18,000 and £51,000.

Wales: Your business needs to have a rateable value between £12,001 and £51,000 [to be eligible](#).

Northern Ireland: [To be eligible](#), your business needs to have a rateable value up to £51,000.

What does it cover?

The grant covers businesses and properties that are wholly or mainly being used:

- As shops, restaurants, cafes, drinking establishments, cinemas and live music venues
- For assembly and leisure
- As hotels, guest and boarding premises, and self-catering accommodation.

If the rateable value of your business is below the figures highlighted above for your region, you won't receive the one-off grant of £25,000. However, if eligible, you will receive the £10,000 grant from the Small Business Grant Scheme.

How your business can access it

Local authorities in England have been instructed to write to businesses who are eligible to receive this grant. It's worth checking your local

authority website for more information and guidance on when your business can expect to receive the grant.

It's expected that local authorities will automatically pay the grant to eligible businesses.

If your company is eligible but you're concerned your local authority doesn't have your business bank details so it can make a grant payment, contact them for guidance.
